April 2-4, 2020

Note: All-State dates and locations are tentative

IV. NOTES:

Please take note of these rotations and plan accordingly. Planning should be the responsibility of the music director, activities director, principal and perhaps the district office. The committee would support off-site locations such as community colleges, recreation centers, and other performing arts facilities in order to better accommodate your school's schedule and needs. If your school is unable to host a festival within the parameters set forth in this report, it is your school's responsibility to find a replacement. If you would like to be taken off of the rotation completely, please contact the CHSAA Music Committee.
